Staring at you on the way to school, hanging with you
was just a dream.

But I had you for a little while and we made a killer
team

Now I'm never gonna leave you

Spazzys always by your side

Coz of all the people I hang out with, you're my
favourite ride.

Coz you left my heart in the garage baby

And now I'm losing my mind

You and rock'n'roll are the ways that I wanna waste my
time.

You're my teenage fantasy, you know and I'm your
punk rock girl

Coz you left my heart in the garage now and I think I'm
gonna hurl

You busted me right out of hell to play games in the
arcade.

Then you left me there all alone

Thinking that we could had it made.

Didn't you have fun with me all those nights we came
home late

Coz I wanna hang around with you forever and
goodbyes can always wait.

Coz you left my heart in the garage baby

And now I'm losing my mind

You and rock'n'roll are the ways that I wanna waste my
time.

You're my teenage fantasy, you know and I'm your
punk rock girl

Coz you left my heart in the garage now and I think I'm
gonna hurl
