I've been wandering aimlessly  
Things got confused inside my head  
Been decomposing shamelessly  
Now I'm one of the undead.

Used to be good, now I'm into gore  
Used to be sweet, but that was before  
Used to be fun, now I'm just a bore  
Wanna be better, I don't want to be a zombie girl no more.

I've been wandering aimlessly  
Things got confused inside my head  
Been decomposing shamelessly  
Now I'm one of the undead.

Used to be good, now I'm into gore  
Used to be sweet, but that was before  
Used to be fun, now I'm just a bore  
Wanna be better, I don't want to be a zombie girl no more.

Ghoulie ghoulie catching up with you  
Drive you home now there's nothing to do  
Every day playing the waiting game  
Watch this baby, watch me eat my own brain.
