Through the Dark I storm with hate, ablaze with
gruesome might

Again destruction walks my path as I battle for the
night

Blackwinds come and lift my dragonwings into the sky

Carry me across domains, towards the night I fly

I spread my wings across the fields, forever growing
cold

Lightning fills my heart like myths had once foretold

I prowl the woods for living blood, the reaper of light
Again destruction walks my path, I conquer for the night
The dragonstorms flew away with the starwinds...
Towards the realm of nights...into the dark where
dragons ride....

I crave for darkness...I crave for the dragonstorms to
come again

Come forth thou glorious night, embrace me in your
triumphant grasp

My eyes they gleam with victory under the blackening
sun

Through the clouds I storm with pride, the battle has
been won

Cravens of the light they flee as dragons ride again
Evil dominates the world...as i am unchained
See the firedragons they ride as fogwinds of beauty

The forevernigh is here at last..the sun now fades
away

Embraced by triumph I take the throne and crown
myself the king

Eternal darkness veils the sky....hear the dragons sing
The dragonstorms flew away with the starwinds...

Towards the realm of nights...into the dark where
dragons ride....
