There's a voice that I can't see  
Sometimes in dreams  
It calls to me-e-e  
I hear a voice but no one's there  
It says be strong  
You best beware  
It's up to you-ooooo  
You got to choose  
Are you on  
Somewhere down deep comes somethin' strong  
I feel these words carry me along  
It's up to you-oooooooooooo  
You got to choose  
Are you gonna win or are you gonna lose  
You go to never give up  
No never give ingonna win or are you gonna lose  
You got to never give up  
No never give in  
And when you fall down, you got to get back up again  
You know you've got to be a fighter  
If you're ever gonna win

HEY

You got to never give up

No never give in

When something's tryin' to pull me down

I'm feelin' weak

I can't go

And when you fall down, you got to get back up again

You know you got to be a fighter

If you're ever gonna win

HEY

You got to never give up

No never give in

You got to never give up

No never give in

And when you fall down, you got to get back up again

You know you got to be a fighter

If you're ever gonna win

HEY

You got to never give up

No never give in
