If I had a dollar for every man I've killed, well then I'd  
have 839  
But if I had a penny for every man I've killed, I'd only  
have 8 dollars 39  
[chorus] Cause I'm a murderin' bastard with a hungry  
master  
He's a dark Lord with an evil appetite  
Always encouragin' for me to bring him virgins  
it seems I take him two or three a night  
Well I shot a man in San Antone he was beggin' for me  
to leave him 'lone  
or atleast just let his wife and kids run free  
but my dark Lord needed sustenance so I took them to  
my evil prince  
I figgered it was better them then me  
[chorus]
