--

[Markus:]

We're leaving together

[Danny:]

But still it's farewell

[Felicia:]

And maybe we'll come back

[SnÃ¤ckan:]

To earth, who can tell?

[Erik:]

I guess there is no one to blame

[Cissi:]

We're leaving ground

[Linda:]

Leaving ground

[Johan:]

Will things ever be the same again?

[All:]

It's the final countdown

The final countdown

Ohh

[Markus:]

We're heading for Venus (venus)

[Danny:]

But still we stand tall

[Felicia:]

And maybe they've seen us

[SnÃckan:]

And welcome us all, yeah

[Erik:]

There's so many lightyears to go

[Cissi:]

And things to be found

[Linda:]

To be found

[Johan:]

I guess that we'll all miss her so

[All:]

It's the final countdown

The final countdown

The final countdown (the final countdown)

Ohhhh

It's the final countdown
