(V1)

Looking out your window  
Dreaming of somewhere far away  
Your life is going nowhere  
And it's just another boring day  
Vicious cycles drive you insane  
You go up and down like a yo-yo  
Another day is passing you by  
You're all dressed up with nowhere to go

(PC)

You're looking for a reason  
Some way to start again  
Look no further, look no further  
Here it comes

(CH)

It's Arbor Day (come out and play)  
Plant a tree today (new life to stay)  
It's Arbor Day (today's the day)  
So don't delay (there's another way)

(V2)

Too many weeds in your garden  
Grabbing hold and pulling you down  
It's time to clear your section  
Take your spade and make a hole in the ground  
Plant these seeds inside you  
Turn the sprinkler on inside your brain  
Metamorphasize you  
They'll bring back life again
