(V1)

I can't imagine what it must have felt like  
Passing by the faces of your friends  
You hear the voice of the crowd  
'He must be crucified'

You gave your whole life for me  
I'm giving my whole life to you

(V2)

In your innocence you chose to suffer  
When all along you knew you'd be betrayed  
Laid down your life  
You died to set me free

You gave your whole life for me  
I'm giving my whole life to you

(PC)

Well I won't walk away from your Spirit  
Away from your love  
'Cause every time a decision is made  
Between your gain or loss  
I wanna lose my life for you  
Take up my cross

(CH)

I wanna be faithful

(V3)

And in those crisis situations  
When it hurts so much to follow you  
Give me the strength  
To walk on down that road

(V4)

I've come to bear this cup of suffering  
There are things that you must put to death  
So that your life may be revealed in me

(BRIDGE)

Not gonna turn away

Tempted to betray  
When you need me to be true  
I'm gonna stand by you  
And stick like glue  
Until the very end
