Well, he's a space orphan from Long STore 6  
Left to rot on Cyborg 9  
He was trying to find his way to Planet X  
But stepped on a land mine  
He only lost his third leg  
But he'd never beg or put anybody down  
And behind the great walls of China  
Underneath the galaxies  
He had a studio  
And he wrote this song

Oh Daddy don't you know  
I'm gonna get some soda pop  
Oh Daddy don't you know  
I'm gonna have some candy bop  
Candy bars, ice cream sodas and licorice  
And jelly beans and ice cream and soda pop  
Yeh she-wop-bop-bop-she-wop-bop-bop  
Singing all day singing all night  
Nothing makes me fright  
Looking for a game to play  
Ain't gonna play any other way
