I read the papers
And it's always news
It's the youth
And there ain't no use in denying it
Youth made mistakes
It's all used
Cos' it's always news
Here's a clue
Everything and it's opposite is always true

Voids walk the street where you're standing now
Voids tuned to space, life will not allow
You and I to meet in circumstances like these
Or any time but now
Any place but here
Any time but now

Don't know why I smoke
As much as I used to
But I did and there ain't no use in denying it
It's a state
Isn't this great?
And you should too
Here's a clue
Everything and it's opposite is always true

Voids walk the street where you're standing now
Voids tuned to space, life will not allow
You and I to meet in circumstances like these
Or any time but now
Any place but here
Any time but now
