When you're home and all alone
If I'm ever on your mind
It's a sign that we should be together
Oh, I try to make it work,
But you're listening to her
And that's why we couldn't make it better

I'm falling behind myself, oh I can't move on
We don't even speak anymore
I can't close my eyes, I'm up all night long, and baby
I miss you more than before

It's been a long time since I've seen you
Oh I hope you didn't forget about me
You know your friends say that you're lonely
But what if I told you I was too?

Oh-oh do you,
Do do do,
Do you,
Do you still think about me?
Oh-oh do you,
Do do do,
Do you,
Oh do you still think about me?

Oh baby come on, you know I didn't mean that

You said you want a break,
Baby I don't wanna wait
What if I was to show up at your door?
When I think about us and what our love once was,
It's just something that I can't ignore.

I'm falling behind myself, oh I can't move on
We don't even speak anymore
I can't close my eyes, I'm up all night long and baby
I miss you more than before

It's been a long time since I've seen you
Oh I hope you didn't forget about me

You know your friends say that you're lonely
But what if I told you I was too?

Oh-oh do you,
Do do do,
Do you,
Do you still think about me?
Oh-oh do you,
Do do do,
Do you,
Oh do you still think about me?

Burning through my veins like that acid rain
I've been following your tracks
Gonna catch that train
I don't wanna play this game, but I can't complain
Cause your loving is enough to drive a man insane

It's been a long time since I've seen you
Oh I hope you didn't forget about me
You know your friends say that you're lonely
But what if I told you I was too?

Oh-oh do you,
Do do do,
Do you,
Do you still think about me?
Oh-oh do you,
Do do do,
Do you,
Oh do you still think about me?
[x2]

Oh baby, I know you still think about me, I know you do
I know you dream about me at night, I think I do too
Ha ha, you're amazing.
I like that.
I like that a lot, ha ha
