Don't you realize that it has to be
Why did you do this? Consolidate my fear

Face down
Save face

Growing out of my face, what it represents I need
Why did you do this? Consolidate my fears

It's all inside of me
It's depraved
Grows inside of me
And it suffocates

Don't wish
Don't wish
Don't wish
Don't wish
It won't help
It won't help

Face down
Save face

It's all inside of me
It's depraved
Grows inside of me
And it suffocates

It's all inside of me
It's depraved
Grows inside of me
And it suffocates

Face down
Save face
