[Speaking] "But share your fortunes with me, and shall remain as silent as the night" It was the year 1493 of the common era Christopher Colombus having colonized several islands in the West Indies and the new world at large, stumbles a small island with extremely hostile inhabitants One of the ship's crew, barely alive, reports being captured and nearly eaten by what he describes as only the "Cat People" Verse 1 Greetings I am know as Jungle cats one Do not fear my appearance remain calm, do not run We come from a planet which orbited through the sun Now on earth the era of the Jungle Cat has began My name is Wise Man, the jungle cat elder Leader of the council, the torn spirit welder When Hip Hop was born i was the first one that held her Left rappers bewitched in cat smiles like esmeralda In your planets history man has hunted cats And wanted raps, now get clawed out in scratch They on a match, with feline rhymes we counteract No man can escape when jungle cats get attached I practice cat magic and make cat nip drinks Despite what science thinks the jungle cats build the sphinx Whack naps get cat naps, more than 20 winks Some cats become extinct like the Great Canadian Lynx Every culture on earth have these cats rendezvous Found in cities like Catalina and Katmandu Over the Central East the secret cat tribe grew Heaven help us all when the Jungle cats come through Chorus X2 Every evening when the sun goes down 3 strangers meet on sacred ground To release the animal that mankind wont allow Take the jungle cat vow Meow! Meow! I am the 2nd in command of the jungle cat war Part man and part jaguar the emperooooorr Special guest appearance on the jungle cat tour Before you walk across the stage obey the jungle cat law Sure you can ran son but ill tear up your up your eye I design the weapon worth the jungle cat pride (KILLAH) Some use words to flatter wisdoms I bring forth cataclisms manifested through cat-like mannerisms My sound rings, from the four legged ground kings Without announcing, cats remain silent as the canines are howling My slender frame is made for pouncing I build a catapult that throw MC's

from my surrounding And shatter domes, abandon
cats retarded homes I use a cat gun to shoot anti-
metaphorms I leave my claw marks to indicate my
battle zones Any human who tests will surely rest in the
cat holes (Any cat and mouse tricks) Can they skin a
cat? I doubt it If you try competing you'll get eaten like
meow-lets Puurrfect! Back to the control panel, same
cat time, same cat channel Who likes the way the
jungle cats get down Go Meow! Meow! Meow meow!
Who loves emperor take the jungle cat vow Go Meow!
Meow! Meow! Meow! Earth, breaks, shakes trembles All
Jungle cats rise up and assemble You dont have to cock
you glocks back To be radical like the spot cats So stop
that, ill turn your matchbox into a box match My rhymes
will make for all the times hurt his flat back You'll look
for me like star trek people search for spot cat Like you
dont know how to drop fast Over hot tracks or shall we
say lounging in my alley way like Top Cat Take 2 jungle
cats and add one more and you have come face to
face with The great crazy floor, open your soul and let
the whack leave you Subtract evil and await the return
of the cat people And fans of all ages, accounts that we
speak to not telling this Limitless boundaries we lead
to, and keep you laced with feline fatter topics Jungle
cats out no doubt catastrophic
