"Endlessly"

I can see you as you drive away, even feel your kiss
good-bye
I didnt know what I should say or do, I still dont know
why

There are no words that can describe my pain,
There is no recipe or cure,
Maybe there is something I dont know, only one thing is
sure

That I will miss you endlessly, and there is nothing I can
do
'Cause I will never ever see,
How beautiful my world would be with you

You were dancing on an empty beach, only lighted by
the moon
Running naked in the pouring rain
Writing I love you, see you soon

What happened, what did I do, what happened to us
I got no clue - only one thing is sure

I know your love, was true and pure
And though you broke my heart I dont regret a thing
I just know for sure
