"One Woman Man"

Shes the attraction at night, she turns you on
Shes a heartbreaker

She walks around in her nest, controls your mind
Shes a man eater

Ive got what I want at home, (dont tease me)
You know that Im not alone, (please leave me)
Shes living on the edge, and she will never understand

That Im a man, a one woman man
(And I will always stay true to my love)
'Cause when you feel it, you will understand, that Im a
man
(Im gonna love you like a man) - a one woman man

The man who touches her skin, will get a scare
And it will stay on forever

She bites back in your dreams, and wont let go when
you scream
Good and bad goes together

(Ive got, what I want) Please dont try
(Ive got, what I need) Dont you push me, no
Im going to show you what I am, show you who I am
