"Free And Easy"

Afloat on the ocean, adrift in the sea

No one around us, there's just you and me

Alone on an island, asleep on the shore

Miles from everyone, I need nothing more

Chorus:

And I'm feeling free and easy, and I'm feeling free and easy

And I'm feeling free and easy, just knowing that you're there

We wake in the morning, we walk by the shore

Miles from everyone, I need nothing more

We float on the ocean, we drift in the sea

The water surrounds us, so easy and free

chorus

(Solo)

We float on the ocean, we drift in the sea

The water surrounds us, so easy and free

chorus repeats 2x
