performed by Nona Hendryx)

All eyes and appetite, like a tiger in the night

Watching every move you make, waiting for the right  
mistake

A wounded heart has no pride, you cut the deepest  
part inside

The heart of a woman (heart of a woman, of a woman)

The heart of a woman (heart of a woman)

This time you won't get far, I can see you in the dark

Street lights and stranger's eyes, they'll be my  
disguise

The clock ticks the night away, tonight you're gonna  
have to pay

The heart of a woman (heart of a woman, of a woman)

Chorus:

The heart of a woman (heart of a woman) - you will  
never know what's inside

The heart of a woman (heart of a woman) - you can run  
but you can't hide

From the heart of a woman (heart of a woman)

One time we were so close, I thought we shared a soul

You were the other half of me, the half that made me  
whole

Now I'm fighting back the tears, I'll never let you see

And you'll never know, as you turn to go you tore away  
a part of me, hey!

(Solo)

I know all the moves, what you'll say and what you'll do

How you'll take her to the edge, leave her hunger  
sweetly fed

Oh baby you can try, you can run but you can't hide  
from my heart

chorus repeats out...
