Hey, look what you've done, ain't you even gonna help
me make it
'Cos now your love's the only one, I tried so hard to
break it

Now, what the hell am I gonna do, now that I'm loving
you
Twelve hundred miles is a long long way, and my
love's gonna grow
Every inch of the way

Chorus:

But I didn't mean to love you, I only meant to see how
far you'd go
And I didn't mean to love you, I tried to leave you but
my heart said no, no

(Solo)

Hey, what can I say, you know I didn't mean to fall for
you
Show me, show me, show me, what can I do
I don't even know if your love is true

Oh no, but I know this, no matter how much I'm gonna
try
I'll never stop loving you
I need you though you're just seventeen
And my love's gonna grow, every night, every day

chorus repeats out
