"I Go Swimming"

Visit "[I Go Swimming](#)" on MotoLyrics.com

performed by Peter Gabriel)

I go swimming, swimming in the water

Swimming in the river, swimming in the sea, I go
swimming

I go swimming, swimming in the water

Swimming in the pool, swimming is cool, I go
swimming

The sun is burning, and I am yearning for the water
flow

Next to my skin the magic begin in water flow

Letting off steam, afloat in a dream I can't let go

Follow my wishes, follow the fishes down below, I go
swimming

I need water, water to drink, water on my brain, water
sustain, water over me

I want water, water I need, water to think, water to
drink, water over me

Sun is burning, and I am yearning for the water flow

Next to my skin, the magic begin in water flow

Letting off steam, afloat in a dream I can't let go

Follow my wishes, follow the fishes down below, I go
swimming

I go swimming, I go swimming

Swimming in water, swimming in water, swimming in
water, water all over me

Swimming in water, swimming in water, swimming in
water

I go swimming, I go swimming, I go swimming, I go
swimming

Swimming, I go swimming, I go swimming, I go
swimming, water all over me

Swimming in water, swimming in water, swimming in
water, water all over me

Swimming in water, swimming in water, swimming in
water, water all over me

Swimming in water, swimming in water, swimming in
water, water all over me

Swimming in water, swimming in water, swimming in
water, water all over me
