I'm amazed at things you do, you do it all with ease  
I smile while everything you do drives me to my knees

Chorus:

'Cos I know that it's magic, and I know that it's magic  
Yes I know that it's magic, in everything you try to do

Many times I see ahead, I'll have to make a stand  
Maybe I can call on you, I know you'd understand

chorus repeats 2x

(Solo)

'Cos I know that it's magic, and I know that it's magic

Yes I know that it's magic, and I know that it's magic  
(repeats out)
