I never thought I'd feel so alone without you

I never thought I'd want someone so much - I need you

What am I gonna do?

Chorus:

I want you, I need you, I long to be beside you

I want you, to see you, I want to, I want you

Never have the lights seemed so cold around me

And never have the streets been so empty, surround
me

What am I gonna do?

chorus

(Solo)

Oh oh oh, what am I gonna do?

chorus repeats out
