Chorus:

If we help one another, na na na...

You know the path is never easy, no matter which one
you might choose

But with you we can do it, together we'll go through it

chorus

And if you need someone to lean on, then you know
just who to call

'Cos with you we can make it, together we can take it

chorus

And if you need someone to lean on, then you know
just who to call

'Cos with you we can make it, together we can take it

chorus

Na na na... (repeats out)
