

Springfield Rick

"Million Dollar Face"

Visit "[Million Dollar Face](#)" on MotoLyrics.com

You were hungry for the lights, you spent your nights
with socialites

You're a million dollar baby with the million dollar blues

And you only gave your time to people you could use

Chorus:

Million dollar face with million dollar grace

You got off to a real bad start

Million dollar face in million dollar lace

You wound up with a two cent heart

You were mine for just a while but true to style and with
a smile

You said, "I have to leave you baby, hold me one more
time

'Cause I know where I should be and it's a long, hard
climb"

chorus repeats 2x
