You know my feelings are in deep

You've caught me calling your name in my sleep

We held each other while we cried through the night

It always turned out alright

But I felt victim to the parallax within

I sensed the change but I swore it was you

I shied away when you needed me most

Didn't see what I was doin', now I'm left destitute

Chorus:

I never knew how lost I could be till today

My panorama's dark, my sight's been stripped away

I can't seem to bridge this way between us two

Don't you know I need you back now baby, can't you
see I'm still crazy for you

We thrived in shadows from scene to scene

My mind still wanders through the tavern on the green

We lived for moments that we stole away, they seem as
vivid today

We had our problems when we hadn't the time

You crang me yours and I did turn mine

Didn't I see how they tore us apart

Now I'm a bandaged refugee, there's nothing left for

me

chorus repeats 2x

Still crazy for you, still crazy for you

I'm so crazy for you, still crazy for you
