Chorus:

You can really do it if you try, you can really do it if you try

You can really do it if you try, just let your mind take over

I-I-I believe in you, you know there's nothing you can't do

Sun sun sun will shine on, shine on thru

The moment that you realize it's true, oh, yes it is!

chorus

Dream, dream, dream, no time to dream away

You've got better things to do

High high time to get yourself together

'Cos I know you can make it, if you try, oh, yes you can

chorus

(Solo)

High high time to get yourself together

'Cos I know you can make it, if you try, oh, yes you can

You can really do it if you try, you can really do it if you try
