You're workin' hard for the American dream

You're the toughest guy I've ever seen

You tolerate no faults, no lazy days

You're the boss and a slave to yourself

I wonder if you ever saw the sun

and the beauty of the whole wide world

Don't hesitate ,you've got no reason to wait

Follow your dreams, follow your heart

Now is the time to make a new start

It's never too late, heaven can wait

Don't be a fool there's nothing to loose

You're makin' money fourteen hours a day

but you don't have any time to spend it

Nobody wants to stay with you ,poor boy

oh, you've got no place for love and joy

I wonder if you ever saw the sun

and the beauty of the whole wide world

Don't hesitate my friend, you've got no reason to wait,
oh yeah

Follow your dreams, follow your heart

Now is the time to make a new start

It's never too late, heaven can wait
Don't be a fool there's nothing to loose
So have a break, it's not too late
a brandnew life is waitin'for ya
Make up your mind
You've got the chance, oh boy
Take it now, oh yeah
Follow your dreams, follow your heart
Now is the time to make a new start
It's never too late, heaven can wait
Don't be a fool there's nothing to loose
