The sun is goin' down, I'm standin' on the peer
watchin' all the lovers on the beach
Dolphins celebrate the day, the night is near
Florida, it's your air that I breathe
When I'm crousin' down the boulevard, I'm feelin' like a star
A sexy girl is on my side, the rhythm makes me feel all right
I know the beat, the joy of life, this easy groove in you
Florida, I will never go, go away from you
The sound of summer makes me feel all right
We're gonna party every day and night
The sound of summer is no fantasy
We're surfen' on a wave of harmony
The rhythm of the ocean dominates the day
Nothin's gonna happen in the heat
But after sunset people drinkin' to the day
Everybody's dancin' in the street
When I'm crousin' down the boulevard, I'm feelin' like a star
A sexy girl is on my side, the rhythm makes me feel all right
I know the beat, the joy of life, this easy groove in you

Florida, I will never go, go away from you
The sound of summer makes me feel all right
We're gonna party every day and night
The sound of summer is no fantasy
We're surfin' on a wave of harmony
Love is in the air, it's everywhere
You can touch the sky, I wanna fly
I can feel the groove , the groove of love and
happiness
Florida, I'm longin' for your light and for your
joyfulness
The sound of summer makes me feel all right
We're gonna party every day and night
The sound of summer is no fantasy
We're surfin' on a wave of harmony
