Listen up, little one
We're already ahead of the game
Hurry now, make me proud
I'm still finding the strength to say
Say goodbye, there's no time
Make it worth every minute,
And never forget every day...

CHORUS

Hey little girl, you're on top of the world (top of the world)
You're all that I wanted to know (all that I wanted to know)
Never look back, you're much stronger than that (stronger than that)
And nobody knows where to go...
When they come to a fork in the road

Shout it out, make it loud
What's the best we could make of today?
Wave goodbye, jump in line
'Cause it's worth every minute
You'll never forget every day...

CHORUS

Hey little girl, you're on top of the world (top of the world)
You're all that I wanted to know (all that I wanted to know)
Never look back, you're much stronger than that (stronger than that)
And nobody knows where to go...

Going home!
And oh! the world is so broken,
Now that there is no time
Oh! words left unspoken
I'll leave them burning inside
We'll be fine

CHORUS

Hey little girl, you're on top of the world (top of the world)
You're all that I wanted to know (all that I wanted to know)
Never look back, you're much stronger than that (stronger than that)
And nobody knows where to go...

(Going home)
No one really knows because
No one really knows because
No one really knows where to go
(Going home)
No one really knows because
No one really knows because
No one really knows where to go

When they come to a fork in the road
When they come to a fork in the road
