Chorus)

It's not a natural thing if we can't do it

Come on and let's get to it tonight

The feeling's all so right

It's not a natural thing if we can't do it

Come on and let's get to it tonight

The feeling's all so right

(Verse 1)

You know that I want your love tonight

'Cause the feelin's all so right

So take off your coat and settle down

'Cause the time is now to move around

Every little fantasy

Girl, you got it with me

And if real love is what you want

Then you gotta come and get me on...

(Bridge)

Every day, every night

I long to have you near me all the time

Gave me a chance to give you my love

Everything will be all right

But you gotta keep me satisfied

(Chorus)

(Verse 2)

Turn off the lights and unplug the phone

Booming O'Jays as we get it on

Girl, you know, that I've been waiting patiently

I've been imagining things

That we can do

You just gotta give me a chance

To make sweet love, make sweet love to you

(Bridge)

(Chorus)

Break it down...

(Chorus/Fade Out)
