Chorus)

You know what I want

You know what I Need

Come on and do me right, tonight

You know what I want

You know what I Need

Come on and do me right, tonight

(Verse 1)

Take your body down

Let me take control of you

Do the things that lovers do, tonight

You better be prepared to stay

'Cause you ain't leaving till the next day

It's gonna be non-stop loving all night

I'll make you feel all right

(Bridge)

You know what I wanna do tonight, work your body
inside

I don't want no interruptions

You know what I wanna do tonight, work your body
inside

I don't want no interruptions

(Verse 2)

Baby, don't be scared

Let me kiss your body everywhere

Pleasure is the thing that I want to give to you

Close your eyes and get ready

It's gonna be non-stop loving all night

I'll make you feel all right

(Bridge)

(Chorus)

(Interlude - Instrumental)

(Chorus/Fade Out)
