Left-Eye:

what up, what up  
say what, say what, say what

(chorus)

Ooh, say what, say what, say what

(Left-Eye)

Ooh, girl u know what's up

(Donell Jones)

(verse one)

Me and my niggas be rollin'  
Schemin' on u and your homies  
The very first day of summer  
All chromed out in a Hummer baby  
Hit the park and parlay  
Hopin' that u walk this way  
Do u and your girls wanna ride  
Play all day and puff on the la

(chorus)

I'm diggin' u and I'm feelin' u  
u know what's up  
Said I'm diggin' u and I'm wantin' u  
So tell me what's up

(verse two)

Peep her thighs and I'm zonin'  
Right around two in the mornin'  
Looking fly with a sundress on  
Think I feel a bone comin' on  
Girl u got it wide open  
Want all day and I'm hopin'  
Baby don't front  
Back seat Jeep, u know what I want

(chorus)

Left-Eye's Rap:

So baby tell me what's up

Can we ascend to higher heights  
And when the path gets rough  
We can give in to brighter nights  
Breathe with peace, expand by leap  
Sow to reap our souls to keep  
The passion deep and filled with heat  
Living this life on the hustle  
I barely get enough time  
U know me for the Platinum  
How I stack them and shine  
U see a lot of contenders  
They try to end up in my world  
A reputation know as the untouchable girl  
I'm movin' on and now I'm trying  
To make a change in my ways  
Be the best that I can be  
To last me all of my days  
Now we can blaze pathways  
Or just take our time  
Better hollar if you hear me  
Cuz Left-Eye gonna shine  
My eyes don't lie see how  
They glisten when you pass me by  
U and I don't need permission to be unified  
Surely I done seen and heard of many places  
Then I traveled around the world, seen many faces  
Don't let another one get near me if you wanna be true  
And show me that nobody else can do it better than you  
So if you serious, I'm curious to see what you got  
My love is furious, cuz I believe in blowin' up spots

(chorus)
