Woah, oh woah-oh  
Woah, oh woah-oh

Driving home in the pouring rain  
Getting tired of the song that's playing  
All I want is a reason,  
You gotta give me something...

You know it's really hard to concentrate  
I'm getting tired of the words you're saying  
Don't tell me your waiting,  
I would be all you wanted

Give me something else...

CHORUS

So if you take the chance  
Then you won't regret it  
'Cause I'll take your hand  
And I'll keep you betting on me  
All the things that I do to you  
Everything this is turning into

(You've gotta)  
Close your eyes and I'll show you something  
We can spend some time  
And I'll keep you running to me  
All the time I would spend with you  
Everything I could learn about you  
I'll be something, I'll be all you wanted

Woah, oh woah-oh  
Woah, oh woah-oh

Here we are in the pouring rain  
It's pretty clear you're a chance worth taking  
I can tell that you're waiting  
For me to give you something...

And now there's nothing left to complicate  
Little words that are not worth saying  
You have got to believe me

I would be all you wanted

Give me something else...

CHORUS

So if you take the chance  
Then you won't regret it  
'Cause I'll take your hand  
And I'll keep you betting on me  
All the things that I do to you  
Everything this is turning into

(You've gotta)

Close your eyes and I'll show you something  
We can spend some time  
And I'll keep you running to me  
All the time I would spend with you  
Everything I could learn about you  
I'll be something, I'll be all you wanted

Take it, or leave it, it's not what you think  
This could be something that no one could fake  
If you just try to change your mind  
But sooner or later you're likely to break  
And I won't be waiting to fix your mistakes

Give me something else...

So if you take a chance  
Then you won't regret it  
'Cause I'll take your hand  
And I'll keep you betting  
All the things that I do to you  
Everything this is

Take the chance  
Then you won't regret it  
'Cause I'll take your hand  
And I'll keep you betting on me  
All the things that I do to you  
Everything this is turning into

(You've gotta)

Close your eyes and I'll show you something  
We can spend some time  
And I'll keep you running to me  
All the time I would spend with you  
Everything I could learn about you  
I'll be something, I'll be all you wanted
