And if you see her face
Maybe you 'll find the way
To tell her i love her still
In so many ways

Some people say
That maybe i'll find given the time
She may change her mind
So if she turns away
See that she hears my case: tell her i love her still
In so many ways

Some people say
That maybe i 'll find, given the time
She may change her mind
So as the days will pass
Please if you get the chance
Tell her i love her still
In so many ways...
