"What's Another Year"

Visit "[What's Another Year](#)" on MotoLyrics.com

I've been waiting such a long time
Looking out for you but you're not here
What's another year -
I've been waking such a long time
Reachin' out for you but you aren't near
What's another year.

What's another year for someone
Who's lost everything that he owns
What's another year for someone
Who's getting used to being alone.

I've been praying such a long time
It's the only way to hide the fear
What's another year.

What's another year for someone,...

I've been crying such a long time
With such a lotta pain in ev'ry tear
What's another year - what's another year - what's
another year.
