Science fiction, science fact
When I saw you, had to react
That's when I found out your heart was black
And I don't need no lover like that

We went out to a sci-fi movie
The plot was scary, it really moved me
And that's when she said it, she saw right through me
And I don't need no lover like that

I'll get her back for what she did to me
I'll show that girl everything that's wrong with she
And after that I will be happy
I don't need no lover like that

I don't need no lover like that
I don't need a lover like that
