"The party"

Visit "[The party](#)" on MotoLyrics.com

It was the end of the school year
She drove up, she said lets have a beer
We got into the car and you said goodbye my friend
We drove off into the distance
We got there we saw the kids who played football
They were drinkin up, yeah, doin it all
I saw some kids I knew from class
We were drunk and having a blast
I was having the best time of my life

At the PAR.T.Y. didn't you come with me
At the PAR.T.Y. didn't you come with me

None of my friends were hangin? around
They were busy chasin? girls down
I think I had too much to drink
'Cause it affected my ability to think
I was having the best time of my life

At the PAR.T.Y. didn't you come with me
At the PAR.T.Y. didn't you come with me

Fill up the beer can with Coca Cola
Makes you feel like a rock & roller
