In a heart beat
I'll be by your side
Anytime you want me
Baby in a heartbeat
I'll be there

If you're ever feelin' down
If your world ain't turning' 'round
I'll make it turn around for you
If you ever need someone
I would love to be the one
You call when you're feelin' all alone
Or if you just need a hand to hold

In a heart beat
I'll be by your side
Anytime you want me
Anytime you want me
In a heart beat
You can have my love
Anytime you wat me
Baby in a heartbeat
I'll be there

If your sky is full of rain
I'll help you find the sun again
I'll chase the clouds away for you
I'll find a brighter day for you

Any hour of the night
I'll be there as fast as lightning strikes
And when you're feeling all alone
I'll be the hand that you can hold

In a heart beat
I'll be by your side
Anytime you want me
Anytime you want me

In a heart beat
I'll be there

You can have my love
Anytime you want me
Baby in a heart beat
I'll be there, aah

In a heart beat
I'll be there
I'll be by your side
Anytime you want me
Anytime you want me

Ooh, In a heart beat
I'll be there
You can have my love
Anytime you want me
Baby, in a heart beat
I'll be there
