

Imaginary Friend

"Alarmed"

Visit "[Alarmed](#)" on MotoLyrics.com

High upon a hill, there is a cabin
One you would've loved to call your own
Wait for me there
A breeze in the air
A way for you to see that I have grown

And why am I afraid to say it's over?
Reaching for the tape before the line
Part of me knows
That I cannot hope
For more than I deserve to ease my mind

CHORUS:

When it comes, I will not be alarmed
I will not be alarmed
I will know it's enough
And when it comes, I will not be alarmed
I will not be alarmed
I will know

Fire that will burn until the morning
Wraps me in a blanket of your life
Tinder and stone
Circle your home
And carry you away into the night

CHORUS
