"Chasing Ghosts"

I wasn't gone
It was only harder to find me
Just play along
Let the cold wind take you in his breeze
And look out at me
Like the sun through the trees
Or if not, just believe in your love

CHORUS:

Oh, don't let me go
It's hard enough on your own
Oh, you're not alone
I've been out chasing ghosts

Straight through the maze
Where the staircase bends as you're racing
Look for a face in the window pane as it's breaking
You stop at the edge and look down off the ledge
And you'll see that it's all in your head

CHORUS x2
