

## Imaginary Friend "Comes And Goes"

Visit "[Comes And Goes](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Late in June, everybody seemed to leave the room  
And you were all I saw  
A bolt in love  
On the bridge, hiding where the water never hit  
You told me not to try  
And I knew why

But you came around  
It was hard enough to talk you down  
Was it worth the toll  
Or was it too much for the role?

It comes and goes  
Before you know  
It comes and goes  
And Paris knows

I replay everything I said to you that day  
And I was wrong from the start  
And that's what's hard

But you always knew  
It was never love to you  
We would leave alone  
We would live in separate homes

Oh, it comes and goes  
Before you know  
It comes and goes  
And Paris knows

Oh  
Oh
