"Fire Escape"

There's a fire escape
At the end of the gate where I'm standing
There's a ladder that goes
To a safe place below in the ground

But I don't need it now
It's too soon to go down to the bottom
I will wait 'til it's close
When I'm needing it most
When I'm scared

BRIDGE:

I will look out into the starred sky
With your help now, I will be all right

CHORUS:

Oh, my future, I can't believe it's time
No, my lover, I'll never leave you behind
Oh, my future, I can't believe it's time
No, my lover, I'll never leave you behind

There's a pattern of stones
Laying out in a row by the river
We had started to climb
With a hand on the side of the wall

But I'm too stunned to call
I'm hoping it all will be over
With the radio on
With the waterfall gone
We will go

BRIDGE

CHORUS x2

No, no
Leave you behind
No, no

Oh, my future, I can't believe it's time

No, my lover, I'll never leave you behind
