"In My Sight"

I know that we both wanna emerge from this unscathed
It's impossible to say what will go
And when we do meet and I see you in your street
In the driveway with your hair down to your side

CHORUS:

And I won't be the first to say I need you
I will wait until your heart comes too
I don't mind as long as I have you
In my sight

Maybe you will return to a place that we once were
Like a second never passed from before
Or we'll never find anything that
Reminds us of a love we once shared long ago

CHORUS

In my sight
In my sight
In my sight
