If you ever wonder
If you're always in my head
I assure you it's true
You don't have to worry
Even when you're gone
I still spend everyday with you

CHORUS:

You're amazing
And you have me
Doesn't matter whatever comes to be
Even if we somehow lose our way
We'll be okay

We'll be okay

It's like we're always moving
Why is it so hard to find some time to catch our breath?
Someday, we will slow down
Long enough to watch the sunrise from our own bed

CHORUS

You're all that I want
You're all I need

CHORUS

We'll be okay
