i could bleed  
does it make me the same as her?  
i could show you things  
but i feel that you have  
seen it all before  
and i breathe  
does it make me the same as her?  
and i feel and i know  
i feel exactly the same as her

it can't be  
exactly  
i am not...  
she is falling over you  
how did it get so old?  
how did it get so old?

it can't be  
exactly  
i am not...  
she is falling over you  
how did it get so old?  
how did it get so old?

i can see  
that it makes me the same as her  
if i shake for you  
does it make you feel  
the way she made you feel

and i breathe  
does it make me the same as her?  
and i feel and i know  
i feel exactly the same as her

it can't be  
exactly  
i am not...  
she is falling over you  
how did it get so old?  
how did it get so old?

it can't be  
exactly  
i am not...  
she is falling over you  
how did it get so old?  
how did it get so old?

and to think i was the one  
that you pushed aside  
i could breathe but i fear that i'm  
breathing far behind  
and over  
falling over

i could bleed  
does it make me the same as her?  
i could show you things  
but i feel that you  
have seen it all before

and i breathe  
does it make me the same as her?  
and i feel and i know  
i feel exactly the same as her

it can't be  
exactly  
i am not...  
she is falling over you  
how did it get so old?  
how did it get so old?

it can't be  
exactly  
i am not...  
she is falling over you  
how did it get so old?  
how did it get so old?
