Let me feel the way i feel
Let me walk the way i choose
Let me have some days with the blues
Let me make my own choices for me
Because thats for once what i want
And thats for once what i need
It is to be so free

Because you are who you are
And i am who i am
Annd dont follow no ones foot steps
Just make some of your own
Dont listen to nobodys stories
You can make one of your own,yeah

Now lift your hands and pray
To one and only pray
Because you know now
You can do it on your own
So be so free

Because you are who you are
And i am who i am
And dont follow no ones foot steps
Just make some of your own
And dont listen to nobodys stories
You can make one of your own
Because now you are free
