"Take Me Away"

I lost this soul to contradiction
The answer's never justified
Could this pain be an addiction
A place for me to run and hide
Fate versus determination
The different things that we can do
I'm caught up in this indecision
The hurt will break your heart in two
Take me away
I'm so sick of all this burning
I want to escape the revolving door
But i can't stop my instinct of searching
What the hell am i looking for?
The miles i've walked they won't resolve it
The concept's caught in caring too
You'd think by now that i'd desolve it
I wish i knew what i should do
Take me away
I'm tired of hurting - take me from where i am
I'm sick of the burning - take me from where i am
Subtract me out
Out of the equation
You're better without
Me and my situation
