I don't know why i'm here
But i know why it falls apart
And i can see why they push away
The neo-ludite says, "it's got to stop."
"we fool ourselves - blanket called security
We lose ourselves - existence is society."
Eminent self-destruction
As the forces pull us in
Resisting the evolution
Hits the ground thru the autumn wind
Sticks and bones evolve thru the known
Thru time and unexpected
Build us up - last human falls
Are we misdirected?
Inside the mind
The world cannot see
We must ask ourselves
To be or not to be
Limited - by senses
Conditioned reality
Stuck in this dimension
A temporal modulation
The information did us in
Examining the attraction
Hit the ground thru the love and sin
Colors and tones evolve thru the known
Thru time and unexpected
Builds us up - last human calls
Are we disconnected?
So blind
The world cannot see
We must ask ourselves
To be or not to
