We we we we are all  
Interconnected to  
An interconnected view  
Which interconnects me here  
And interconnects to you

So whether you're in your room  
Or whether you're on the moon  
What interconnects us all  
Interconnects to you

It's all amazing tonight  
The energy's coming out  
It feels amazing tonight  
It's all electric

Tonight is all electric  
And we are all connected  
The energy is epic  
Invading all our senses

We are only stardust  
We gather through the cosmos  
The night is all electric  
And we are all connected

It's all amazing tonight  
The energy's coming out  
It feels amazing tonight  
It's all electric

I'm like a generator  
I'll spark you now or later  
Shaking like the equator  
Moving like an escalator  
I'm not afraid of  
Being more than  
Just a human being  
Freeing every part of me  
Once I start there's no stopping me

So I stomp to the beat

And I reach for the moon  
Jump to my feet  
When the bass goes  
Bass go zoom body heat rises  
And the whole place  
Goes off like geysers

State energize us  
Shaping inside us  
Fate here to guide us  
Wake and remind us  
Lose us, find us  
Make us timeless  
'Till the whole place  
Goes off like geysers

It's all amazing tonight  
The energy's coming out  
feels amazing tonight  
It's all electric

Tonight is all electric  
And we are all connected  
The energy is epic  
Invading all our senses

We are only stardust  
We gather through the cosmos  
The night is all electric  
And we are all connected

We are all  
Interconnected to  
An interconnected view  
Which interconnects me here  
And interconnects to you

It's all amazing tonight  
The energy's coming out  
feels amazing tonight  
It's all electric

Tonight is all electric  
And we are all connected  
The energy is epic  
Invading all our senses

We are only stardust  
We gather through the cosmos  
Tonight is all electric  
And we are all connected

It's all amazing tonight  
The energy's coming out  
feels amazing tonight
