Evil inside
Leave death behind
Into the night
Ostego life

Holy shit, start to run
Look out fuckers, here he comes
Now he's back from the dead
Here to start the shit again
Don't try and get into his way
'cause you won't like the price you'll pay
Party down, run away
You'll be dead either way

When he comes, give your drink
You'll get use to his rotting stink
He'll show you a time as well
In the end you'll go to hell
You see the filth, you see a wretch
You want it all, but there's a catch
All your life, all your dreams
Here can hear all your screams

Evil inside
Leave death behind
Into the night
Ostego life

Ostego amigo

Hurt the ones you loved the most
He'll make you turn white as a ghost
Frightening beyond belief and
Now your life is filled with grief
With his bony hands of death
He'll choke you till your final breath
Now you see, now you know
Your evil friend of ostego
