Intro

Why do I keep
Goin' back to you
You'll never change

Verse 1

I trusted you
You threw it back at me
I fell in love
I fell down on my face
For years I wondered, what I saw in you
I'm seeking forgiveness, from those you made me
loose

Pre-Chorus

I'm done with you
I'm standing on my own

Chorus

I think I care too much for you
Why am I still here
You told me to go away (tell me why you're still here)
Still I decide to stay
I think I care too much

Verse 2

You took my life
And threw it all away
You broke my heart
And let me bleed to death
You took advantage of what I had to give
I'm taking it back now, and leaving you behind

Bridge
